VOLUME LXIII — UKIAH, MENDOCINO CO., CAL., FRIDAY, MARCH 11, 1932 — NUMBER 25

Want Landowners to Co-operate With City

The city council has completed arrangements for improving a number of streets in Ukiah during this season and the property owners along the route who have not put in curbs and gutters are requested to co-operate with the city by putting them in as soon as possible. It would seem that the council is not asking a great deal, as the property affected will have armor coated macadam, the equivalent of a paved street, when the project has been completed.

The streets to be included in the improvement are as follows: Oak from Seminary to Scott; Main from Clay to Henry; Clara from State to railroad; Church from School to Oak; Stevenson, same; Clay from Main to State.

A number of others are to receive a coating of dust oil, which will be made to serve for the present.

Hutton is said to have had a sackfull of wood in his possession when Mrs. Allenby cornered him.

MONSON DISCHARGED

Believing that there was insufficient evidence to make a conviction possible, District Attorney Gibson has dismissed the case against Fred Monson, of Fort Bragg, charged with involuntary manslaughter.

Monson shot and killed Kenneth Shaffer at a cabin near Fort Bragg last New Years. Monson was testing a pistol and discharged a shot from it just as Monson stepped through the door and into the line of fire. The bullet killed him instantly.

Woman Gets Decree Delayed Nine Years

Mrs. Myrtle Rossini, of Eureka, was in Ukiah last week investigating old superior court records. In 1922, Mrs. Rossini sued her husband for divorce. She supposed that an interlocutory decree and later a final decree had been granted her and, under this belief, married again. Recently she learned that no decree, either interlocutory or final, had been granted, although the court had made an order that the interlocutory decree be issued.

Last Friday, therefore, the omission of over nine years was corrected and the interlocutory decree was granted as of November 6, 1922.

However, on account of the negligence of her Eureka attorney, no petition was ever filed asking for the final decree, and her second marriage is, therefore, illegal.

Dooty was working on a scaffolding 25 feet above the river while some piling was being removed with a block and tackle. The cable caught in the plank on which Dooty was standing and he was thrown to the water 25 feet below.

In his downward plunge he barely missed some heavy timbers. He hit the water with resounding splash but came up a minute later unhurt.

Panthers Numerous in Willits Section

WILLITS, March 8.—Fred Ogle and Donald Muir have killed four panthers in the hills east of town during the past month. In addition to these, other hunters have killed three more inside a radius of ten miles of town.

The last panther killed by Ogle and Muir was a male and measured eight feet from tip to tip and is presumed to be the mate to the one they killed the week previous. The deep snow on the higher mountains on the eastern boundary of the county drove all kinds of wild life down to the lower levels. The deer came out first and then the panthers followed. Numerous deer have been seen feeding with cattle on the river bottom lands.

The hunters found the remains of 12 partially devoured carcasses of deer that the panthers have been feeding on and the panthers are also blamed with having killed numerous sheep and goats.

Jury Returns $2500 Verdict for Dunham

Alienation Suit Tried in Superior Court This Week. Few Witnesses Examined.

Less than a dozen of the twenty-odd witnesses summoned were called upon to testify in the alienation suit of Oscar Dunham vs. George Pinches, which was tried before a jury in the superior court this week.

Attorneys Charles Kasch and Wayne Burke, for the defense, used but three, while the prosecution, conducted by Lilburn Gibson, examined but eight, including both principals.

The case was tried before Judge Hilliard Comstock, of Santa Rosa, and a jury and consumed two days. Dunham sought $25,000 as damages for alienation of the affections of his wife, Margie Dunham. The couple have been married 17 years and have two minor daughters, 14 and 16 years of age. They separated in September 1931, and Dunham charged Pinches with being the cause of their separation. The two men had been friends for 15 years and had often worked together. Dunham charged that he found his wife and Pinches in compromising situations on several occasions. He warned Pinches, but alleged the latter paid no heed. Matters came to a head when Dunham went to Garberville to work and Pinches thereupon left his family at Laytonville and moved to Willits, where Mrs. Dunham was working.

The case went to the jury at 5:35 Wednesday evening. They returned to the courtroom once for instructions and brought in a verdict of $2500 and costs at 10:17.

The jury consisted of Mrs. Daisy Nutt, of Point Arena; Albert Farrell, of Boonville; Mrs. Lula Nissen, Boonville; Hallie Case, Willits; E. C. Rawles, Ukiah; Mrs. E. B. Dickey, Potter valley; Charles Wallach, Boonville; V. A. Blosser, Willits; Mrs. Hattie Horton, Point Arena; W. T. McGarvey, Ukiah; Mrs. Clara Gschwend, Calpella; Mrs. V. Giorno, Ukiah.

PHONE FACTS

The first telephones in Ethiopia were introduced in 1896, and were installed by Italian prisoners captured at the Battle of Aduwa.

Statistics of the 1930 farm census, recently released by the Department of Commerce, show that Iowa outranks every other state in the number of telephones on farms.

A net increase of 10,800 telephones in Washington, D. C., took place in 1931, as compared with a gain of 9,600 in 1930. At the beginning of 1932, Washington was served by some 179,000 telephones.

The New York Telephone Company spent about $85,000,000 during 1931 in New York state on its construction and improvement program. This figure exceeds the annual average spent for these purposes in the state for the last five years, the five-year total amounting to about $417,000,000.

The first telephone exchange in Siam was established at Bangkok, the capital of the country, in 1886. This was replaced 20 years later with a common battery two-wire system which is still in operation. A modern and more efficient telephone system, however, is now being installed, new exchanges are being built, and work is under way for the laying of a complete new underground cable system.

The Grange dance Saturday night was enjoyed by a large group of people from Potter and the surrounding towns.

Next Saturday night the Grange will hold its regular meeting.

CHRISTIAN SCIENCE CHURCHES

"Substance" will be the subject of the Lesson-Sermon Sunday, March 13, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The citations which comprise the Lesson-Sermon will include the following from the Bible: "As for God, his way is perfect: the word of the Lord is tried: he is a buckler to all those that trust in him. It is God that girdeth me with strength, and maketh my way perfect" (Ps. 18:30, 32).

The Lesson-Sermon also will include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: " 'Work out your own salvation,' is the demand of Life and Love, for to this end God worketh with you. 'Occupy till I come!' Wait for your reward, and 'be not weary in well doing.' If your endeavors are beset by fearful odds, and you receive no present reward, go not back to error, nor become a sluggard in the race" (p. 22).

BUSINESS COURSE GIVES TELEPHONE ETIQUETTE

A new course in telephone etiquette was introduced into the curriculum of the School of Secretarial Practice of Pace Institute in New York City on January 1. A survey made by the Institute during 1931 revealed the fact that fully one-half of the duties in high grade secretarial positions involve telephone transactions, and that employers are now giving the utmost weight to proper telephone usage.

The new course provides specific training in such subjects as placing a call, receiving a call, voice technique, out-of-town service, how to use the dial telephone, the private branch exchange, care of the telephone equipment, and practice exercises and drills.

Attorney and Mrs. W. H. Brunner spent Tuesday in San Francisco, where they went on business.

Entertainment Well Received at Hopland

Unusual success was accorded the "Diversified Entertainers" when they appeared before a record breaking house in the Hopland high school auditorium, Friday night. It was estimated that the building was taxed to capacity and everyone that was present immensely enjoyed the program the local people offered.

Whole hearted interest was manifest from the first by the audience and throughout the entire evening of entertainment. No charge was made for admission. One of the best features was the community singing, which was participated in by old and young. Children from both the grammar and high schools rendered several old-time favorite songs. During the program several people of Hopland were called on to sing duets, quartettes and solos which were received with great applause.

At the beginning of the evening A. G. Nelson, principal of the high school, gave a talk asking full co-operation of the town people to make the program a success. An interesting feature was given by Hons C. Albert, leader of the group, dealing with the origin of the trombone and other musical instruments.

Mrs. C. E. Roberts gave several impersonations which were cleverly done. Mrs. Roberts has been in this work several years and has gained many compliments over her unusual ability in this particular line.

Encouraged over the outcome of the affair, the members of the musical group are planning to give another program in the immediate vicinity of Ukiah in about two weeks. Announcement will be made of the date in the near future.

AGAIN IN BUSINESS

W. F. Monte, former resident of this city, returned last week to Ukiah to make his permanent home. He has been in Santa Rosa, where he had charge of a large six-chair barber shop for over three years.

Monte was formerly employed in the Palace barber shop and has many friends here. He has bought a half interest in the Utter barber shop on Church street.

Covelo News

COVELO, Mar. 26.—A variation in the method of handling the executive committee's work for the farm center promises more efficient service for the current year. Monthly meetings are scheduled for the Monday evenings preceding the regular center meetings. At this committee meeting the program for the following month is planned. This gives plenty of time to prepare whatever topic may be desired, without the handicaps which grow out of planning too far ahead. The committee for April. Dr. Kenneth Mcmeeting has arranged a special Dairy Kay, extension specialist of veterinary science, will address the meeting on the subject of abortion. Every owner of herds will realize the importance of this discussion. Mr. Foote reports T. B. testing now under way in the county under the joint direction of state and federal governments, the work being done by Dr. McDonald and Dr. Rowe.

Mr. and Mrs. J. F. Scott celebrated last week their sixth wedding anniversary, which is also the birthday of both husband and wife. The anniversary falls on March 2, but in order to include on the happy occasion Mr. and Mrs. Frank Murphy of San Francisco, the celebration feast was arranged for the preceding Sunday. Baby Jean, Mr. and Mrs. F. O. Scott and Charles Foster were also guests. Six years ago a radio station in the city broadcast the unusual coincidence of wedding and birthdays.

Covelo citizens found much mild amusement Tuesday in the activities of a traveling show promoter who snapped street scenes around town for reproduction on the movie screen in the evening.

J. G. Short has purchased the G. W. Goforth residence on Commercial avenue.

Sympathy is being extended to Mr. and Mrs. F. E. Woolley, who were summoned to Portland, Oregon last week by the death of Mr. Woolley's sister.

Mrs. T. P. Hill entertained the F. F. F.'s at dinner on Wednesday of last week. Most attractive was the large square table with its background of white linen setting off the beauty of the green glassware and bouquets of violets. The first course was a cocktail concocted from a recipe submitted by Mrs. Murphey for the special enjoyment of her friends. Kind remembrances of the absent member and genial hilarity among those present characterized the dinner and the comfortable social hours which followed before the open fire in the lobby. Enjoying the dinner and the afternoon with the hostess were Mrs. G. W. Goforth, Mrs. Earl Caldwell, Mrs. T. J. Lowry, Mrs. George Noble, Mrs. G. M. Biggar, Mrs. F. B. Hayden and Mrs. E. A. Gravier.

Posts for a new fence are being set along the eastern boundary of the Marks farm, just north of the F. M. Goforth residence.

Augusta Chapter, O. E. S., entertained members of the Masonic fraternity at its last regular meeting. A short program was presented by Mrs. Goforth, Mrs. Gravier and a group of choral singers. Past Master G. F. Johnson presided genially over the gathering. He was ably assisted by the committee in charge, Mrs. Gravier, Mrs. Johnson, Mrs. Lulu Hurt, J. D. Rohrbough and B. L. Hurt. Dancing followed the program, Mrs. Lovett, Harold Tuttle and B. L. Hurt furnishing inspiration for the Virginia reel and other old-time steps. Mrs. Fannie English played the accompaniments for the singing. Pastor Charles Olsen of the reservation church furnished two pleasing numbers on the zither. The ladies appeared in colonial costumes. Punch and wafers were served from a pretty booth adorned by the national colors.

The high school Easter vacation will extend from March 18 to March 28.

Covelo Lodge No. 231 will entertain the members of the Eastern Star on Tuesday, March 22.

Principal Skelley and members of the cast of the operetta "Oh Doctor!" visited Willits Saturday to witness the presentation of the same production by the Willits high school. The operetta will be presented here on Friday evening of this week.

Half a dozen cars made the trip to Laytonville Saturday night, taking a group of Covelo citizens to the dance in the neighboring town.

The Covelo Improvement club was well represented at the county convention in Ukiah Saturday. Delegates were Mesdames Biggar, Havenhill, Bradshaw, Rohrbough and Goforth. A Miss Perkins was also in attendance. Mark Havenhill of the high school faculty and Philip Rohrbough acted as amiable chauffeurs for the ladies. They report an interesting session. Delightful hospitality was shown by the hostess clubs—the Saturday Afternoon club and Kosmos club of Ukiah.

Pastor and Mrs. Burnham and Mother Burnham are all recovering slowly from an attack of influenza.

Luther Morrison and Mrs. M. E. Gravier were Ukiah visitors Saturday.

Judson Rhoads and his sister, Mrs. Naomi Norton, came up last week to visit their grandparents, Mr. and Mrs. C. H. Hurt, who are still confined to their home by illness.

Mr. and Mrs. C. S. Foster and Beulah Vie are out again after a struggle with influenza.

Byron Hamilton, of Shellville, came up last week to spend a few days with his mother, Mrs. S. E. Hamilton, on her farm.

Round valley friends are much interested in the news which has come to the parents here of the marriage in Reno, Nevada, on February 27 of Wilbur White, only son of Mr. and Mrs. E. O. White, and Miss Thelma Buckley of Davis. The young people have already established housekeeping in an apartment in Davis. Wilbur is in his senior year at the agricultural college. He expects to take his degree at Christmas. He is specializing in agronomy, and is a student assistant in his department. His bride is also a member of the student staff at Davis. Round valley extends felicitations.

Mr. and Mrs. A. N. Moore celebrated the tenth anniversary of their marriage on Sunday, March 6. Present to enjoy the occasion with them were a group of intimate friends, including Mr. and Mrs. C. G. Fish, Mr. and Mrs. C. A. Riffe, Mr. and Mrs. Robert Lovejoy and Mr. and Mrs. M. E. Gravier. Interest at the feast centered in a beautiful angel food wedding cake from the practiced hand of Mrs. Moore, with artistic pink and white decorations by the husband. An afternoon of happy social relaxation followed the dinner.

The farm center social meeting of March 7 brought out a good old time audience of round about 200. Formal dress parade rather than routine business characterized the meeting, though there was plenty of both business and pleasure. Increasing evidence of more concentrated forethought, planning and organization on the part of the elected officers and the executive committee is most encouraging.

Senator R. R. Ingels was the main speaker of the evening. He touched upon matters of current vital interest to this senatorial district. He presented the reasons which have caused the state to withdraw from all attempt at fire control in outlying sections and concentrate upon a section of the Redwood highway alone; a summary of the important achievements of the unemployment camps in this district; a brief sketch of road development concerning us; the attitude of the farm bureau toward taxation problems; and a note of warning concerning the special election problem of oil conservation up for referendum in May.

Two reels of pictures, showing industrial conditions in Japanese and Chinese ports, were most interesting. Selections by the choral club and by the band pleased the audience. Ceremonial dignity and rollicking hilarity combined to make the box lunch sale a feature of the evening. Dancing followed.

County Federation Meeting

Mendocino County Federation of Women's Clubs convened in Ukiah last Saturday, Kosmos and Saturday Afternoon Clubs being the hostess clubs. Saturday Afternoon clubhouse was the meeting place and here representatives of the eleven clubs of the county gathered at 10:00 a. m. for the opening session.

Mrs. Myrtle Eglin of Caspar, county president, called the meeting to order and invited to the speaker's table and introduced to the gathering as her guests, Mrs. W. H. Higgins, second vice-president of San Francisco district, Mrs. Jorgensen of Eureka president of Humboldt county, and past presidents of Mendocino county, Mrs. W. D. L. Held of Ukiah, Mrs. Baker of Willits and Mrs. I. C. Burke of Boonville. To each of these ladies Mrs. Eglin presented a dainty corsage.

Reports of county chairmen showed splendid activity in the civic work of the clubs. Mrs. E. V. A. Murphey of Covelo gave a particularly interesting talk on Indian Welfare, stressing need of better housing and medical care for the nation's wards.

Mrs. I. C. Burke, chairman of Child Welfare, told of last year's successful health camp for underhourished children and of plans for this year's camp. The clubs of the county are contributing funds for a cooler for the camp.

Mrs. L. H. Foster, chairman of Institutional Relations, told of improved conditions at the county hospital. The county federation has spent $75 for a radio for the pleasure of the patients there.

Most interesting was the report of Mrs. Catherine Brown, county nurse of Mendocino county. Thousands of children examined, thousands of miles traveled in the course of her work, and a vast amount of educative and preventive work accomplished.

During the sessions delightful musical numbers were given by Mrs. R. R. Byrnes, Mrs. J. H. Hansen, Miss Kirtland, Mrs. V. McClure, Mrs. Z. Reynolds and Miss Juanita Yeo.

A delightful feature of the day was the planting of two redwood trees, honoring the bi-centennial of Washington's birth. In the Kosmos Club yard Mrs. Higgins dedicated the tree and in the Saturday Afternoon Club yard Mr. E. J. James, veteran forestry man, spoke briefly of tree planting. Robert Bernhard, Boy Scout, did the real planting.

The high feature of the afternoon program was a most inspiring address on "The Challenge of Youth," by Miss Josephine Seaman of La Jolla, state chairman of Literature.

County presidents gave reports showing splendid work done in every community, showing libraries supported and cared for by the clubs in four communities, health and child welfare work in every part of the county, aid to needy, especially to children, cemeteries cared for, community Christmas trees, work for Indian relief in all the Indian villages, and large contributions to the social life of every community.

The resolutions committee, in addition to the press of the county and to the hostess clubs, presented strong resolutions on the excellent work of the county nurse and one asking for continued interest in improving conditions at the county hospital.

Mrs. Eglin, county president, presided most efficiently and graciously and was ably assisted by the gifted and careful secretary, Mrs. G. M. Biggar.

Luncheon for visitors was served by the ladies of the Methodist church, where about 70 ladies sat down to a very delicious meal.

Kosmos Club, Saturday Afternoon Club and the luncheon tables were beautifully decorated in the lovely yellow of acacias and daffodils.

At the close of the session the invitation of the Point Arena club for the October meeting place was accepted and adjournment was taken after singing "God Be With You Till We Meet Again."

Ukiah Grange Holds Meeting

Worthy Master Marion Swim presided at a notable meeting of Ukiah Grange, No. 419, which was held in Boring hall last Friday night.

After the regular business session, the worthy lecturer, Mrs. Mary Luce, presented an interesting program.

Kathleen and Eugene Davis sang a duet, after which Miss Drusilla Talbot gave an amusing reading entitled "Moo Cow, Moo."

A duet by Kathleen Davis and Chrystine Smith was followed by a one-act farce, "The Decimal Point."

The cast of characters included Helen Swim, Dale Louck, Carroll Weeks, Veda Collier and H. E. Dewey. The financial hopes and fears of the actors were divided or multiplied as the decimal point moved from left to right and vice versa in the amounts under consideration.

The big event of the evening was the celebration of the 49th wedding anniversary of Mr. and Mrs. C. H. Duncan, which came as a surprise to the complimented couple.

Beautiful little Alyce Swim and her gallant escort, Jimmie York, representing a bride and groom of the coming generation, marched with the honored couple.

Mr. and Mrs. Duncan were presented with a wonderful wedding cake baked by Mrs. Bertha York, the champion cake maker of the Grange. The confection was a large pyramid affair of sunshine and angel food. With her characteristic generosity, Mrs. Duncan cut her wedding cake and divided it among those present.

A joint meeting of Mendocino and Sonoma county Granges was held in the I. O. O. F. hall in Santa Rosa last Monday evening. National Lecturer James C. Farmer was the guest of honor and speaker of the meeting.

In the first half of his address, he gave much useful and valuable advice and instruction to lecturers and in the latter half he discussed the all important subject of taxation in a lucid and logical manner.

He was greeted by more than 200 members of the Sonoma county Granges.

Among those who went down from the Ukiah Grange were Worthy Master Marion Swim, Mr. and Mrs. F. M. Swim, the Misses Edith and Helen Swim, Mr. and Mrs. C. N. Snyder, Miss Daisy Rogers and Mr. and Mrs. C. B. Burgess.

Five members of the Potter Valley Grange were in attendance as follows: Mr. and Mrs. James Eddie, Mr. and Mrs. H. A. Dickey, and Mrs. Sarah Hughes.

Mendocino County Pomona Grange, No. 10, will meet in Redwood valley next Tuesday evening, March 15.

George Sehlmeyer, master of the California State Grange, will be in attendance and will address the meeting on topics of vital importance to agriculture.

Methodist Brotherhood Enjoys Social

Contrary to their usual custom, the men of the Ukiah Methodist brotherhood cooked and served their own dinner last Tuesday at the monthly social meeting of the organization at the Methodist church. The women of the church have been furnishing the dinners hitherto. The kitchen crew at Tuesday's affair included Frank Toles, Lilburn Gibson, Hanby Ford and Harry Shimmin and they turned out a dinner of creamed chicken, mashed potatoes and all the trimmings clear through to dessert that was a gastronomic triumph. Seven of the young men of the church acted as waiters. About 60 sat down to the tables.

Will Van Dyke acted as program chairman and Harry Burke as master of ceremonies.

The decorations were inspired by the sea and things of the sea, and most of the program followed the same idea. Nut cups were yellow ships carrying blue flags and afloat on blue seas. A large ship model belonging to Sam Wellman and a miniature in a bottle, belonging to Edward Eversole, were prominently displayed.

Rev. A. W. Young, pastor of the Christian church, was the guest of the brotherhood and the speaker of the evening.

Singing was led by Hugh Harvey. The program was as follows:

Doxology.

Invocation.

Dinner and Business Meeting.

Sailor songs, led by Hugh Harvey.

Talk, "What Is Your Port?", W. P. Thomas.

Solo, "Out on the Deep," Hugh Harvey.

Talk, "The Set of the Sail," Rev. W. A. Bonner.

Masonic Trio, "Song of the Sea" and "Skipper of St. Ives."

Address, "The Pilot," Rev. A. W. Young.

Young Marine Stationed at Shanghai

The Roseburg News-Review of Roseburg, Oregon, recently published an interesting picture of Ashley T. Tabor Jr. and an article concerning his work with the Marine corps in Shanghai.

The young man is the son of Mr. and Mrs. Ashley T. Tabor, Sr. of 446 South Pine street, Roseburg, Oregon and the nephew of Mrs. J. S. Summers and Mrs. Anna Montgomery of this city.

Mrs. Tabor, who before her marriage was Miss Laura Montgomery, was born and raised in the vicinity of Potter valley, where she has many friends who will be interested in the career of her son.

The Roseburg News-Review says in part, "Ashley T. Tabor, Jr. is getting a first-hand view of the Japanese-Chinese war as he is stationed with the U. S. Marine corps in Shanghai, serving as radio operator at the marine base.

"He has been stationed in China since the summer of 1930 and has written home many interesting letters concerning Shanghai and Chinese customs.

The young marine, who is 24 years old, is a graduate of the Roseburg high school. He became interested in military affairs while serving as a member of the Roseburg national guard during his high school days. Following graduation, he enlisted in the coast guard and spent one year in that service.

He joined the U. S. Marine corps in April 1930, and asked for work in the radio department. He was immediately sent to China, where he was given a course in radio work.

His parents and relatives here anxiously await his letters containing his observation on the present trouble in China.

Turning north, they will visit Washington and then spend a month with relatives and friends of Mr. and Mrs. Snyder in Pennsylvania. After travelling through the New England states they will return through New York state and Michigan and then swing into Canada.

While in the east Mr. Burgess will place a ladder patent with the Eastern Ladder Mfgs. He has already placed it with the Patterson Ladder Co. of Oakland, for the western states.

This 10,000-mile auto trip should be a very enjoyable one for every member of the party.

News of the approaching wedding of Mrs. Anna Montgomery and Loren V. Hufft of Ukiah, which is scheduled to occur shortly after Easter, is being received with keen interest by their many friends.

Mrs. Montgomery resides with her 10-year-old son, Billie, at her home at 313 Clara avenue.

She was born near Graz, Austria, where she spent her childhood and received her early education.

She came to this country when she was 15 years of age and located first in this state at Fresno.

Later she entered the business field in Ukiah by purchasing an interest in the City Bakery, which she operated for a time in partnership with B. Klemm.

She now owns and operates during the summer season a private trucking business, which conveys freight to the homes of George and W. P. Fuller in Gravelly valley.

The bride-elect is a member of the American Legion auxiliary and takes an active interest in the welfare of the organization.

In addition to her recognized business ability, Mrs. Montgomery has many fine qualities of mind and manner that have won her many firm friends in this community.

Loren V. Hufft was born, raised and educated in Ukiah and has lived all his life here. He is a talented musician and comes of a musical family. He and his two brothers were prominent members of the Ukiah band for years. He was solo cornetist in the fine band organized and directed by Henry Keller.

He is a well known newspaper man of this county and has served his time in every division of the trade from office boy up to owner and publisher.

He has probably been in the newspaper business continuously in Ukiah longer than any other man with the exception of E. P. Thurston.

He served his apprenticeship as a printer with W. O. White, owner and publisher of the Republican Press, for which paper Mr. Hufft worked for many years.

Later E. A. Keller and L. V. Hufft under the firm name of Keller and Hufft purchased the Ukiah Times, which they published up to the time Mr. Hufft was called in the draft in the World war.

He went into training at Camp Kearney, near San Diego. He went to France with the 40th division, and was later transferred to the Justice hospital group at Toul, where he had charge of the receiving ward in various hospitals.

He was discharged on July 1, 1919, seven months after the armistice was signed.

After returning home, the former newspaper man accepted a position with the Dispatch-Democrat in April 1920, and has now almost completed 12 years with this paper.

Mr. Hufft served his country faithfully during the dark days of the World war and is a member of the American Legion.

He is a man of sterling character and is regarded with sincere affection by those who know him best.

The popular couple have a host of friends who will extend to them every good wish for their future happiness and prosperity.

The Ukiah Rotary Club held its regular weekly luncheon at the Palace hotel Tuesday noon with President F. A. Yates conducting the meeting.

George Merk, chairman of the day, introduced Past President A. R. Thomas as speaker of the meeting, who addressed the club on the timely topic of national parks and playgrounds. Recent purchases by the State Park Commission have directed the thoughts and interest of the people of California toward the preservation of the beauty spots of the country.

Bride Complimented At Surprise Party

Mrs. Maxine Adams Brown was the guest of honor at a delightful surprise party held at the Layman home in west Perkins street last Monday evening with Mrs. Leona Mazzoni, Mrs. Dorothy Archer and Miss Lillian Hengeveld acting as hostesses.

A beautiful and harmonious color scheme of gold, green and rose prevailed throughout the elaborate and artistic decorations.

The rooms were adorned with lovely bouquets of fresh and fragrant almond blossoms in a soft shade of satiny rose.

Above the supper table was suspended a pink parasol filled with the same fair fruit blossoms. The length and breadth of the table spread with snowy linen was crossed with streamers of green crepe paper bordered with gold. The centerpiece was a golden bowl of glowing yellow daffodils.

Lighted pink candles in golden holders shed a radiant light over the table.

The refreshments were dainty enough to delight the aesthetic taste of the guests, and consisted of three angel cakes frosted, respectively, in delicate shades of gold, green and pink served with slices of pale green ice cream with a pink heart in the center.

After supper the complimented guest was presented with a buccaneer's bonnet and instructed to fare forth on the high seas as a pilfering pirate in search of a mysterious treasure chest. The instructions led her in devious ways around the seven seas but eventually she obtained the golden key and discovered the treasure chest in a darksome cave.

The green chest with golden hinges and handles was surmounted with a misty bow of pink maline. It contained a 50-piece set of fine china and a card bearing the names of the givers and their good wishes.

Those present were: Mrs. Leona Mazzoni, Mrs. Dorothy Archer, Miss Lillian Hengeveld, Mrs. Catherine Brown, Miss Florence Bull, Mrs. Edith McCain, Mrs. Lucile Brown, Miss Rosalie Gibson, Mrs. J. E. Business Women Pay Tribute to Golden State

The Business and Professional Women's Club of Ukiah held the first meeting of the current month at the Palace hotel last Thursday evening with Mrs. Melissa Carpenter presiding.

The program was planned and prepared as a tribute to California, the golden.

The popular Canton room with its oriental atmosphere was, in direct contrast, converted temporarily into a California room, pervaded by the very spirit of the occident.

An immense bear flag belonging to Ukiah Parlor No. 71, Native Sons of the Golden West, was conspicuously displayed on the wall behind the speaker's table while many smaller United States flags and banners of the bear were also used in the decorations.

The tables were lighted with golden candles and were radiant with the golden eschscholtzia californica, the official state flower which displays its satin sheen throughout the length and breadth of the state.

A typical American dinner was served, including some of the finest products of California's fertile soil.

Mrs. Louise Bernhard played the accompaniment and led in the community singing of "I Love You, California" and "California, Here I Come."

Mrs. Bernhard read a very beautiful and poetic description of the golden poppy and legends relative to its origin.

Miss Hazel Hunt a charming and talented little native daughter, clad in a glorious golden costume with garlands of golden poppies about her shoulders, recited a tribute to the poppy by Ina Coolbrith, poet laureate of California and also executed a graceful poppy dance in which she appeared as the impersonation of the soul of these flashing flowers.

Mrs. Ardis DeMotte acted as accompanist for the dancer.

Miss Grace Emery read a poem, "The Forest Fire Trail," a clever composition from the fertile pen of Marie Hinton Rea.

Miss Barbara Turner, granddaughter of Mrs. S. D. Crabbe, entertained charmingly in a dance called "The Waltz of the Poppies," in which she seemed to flit about like a vivified gleam of golden sunshine. As an encore, she gave an Indian dance in which the aborigines expressed their sense of rhythm.

Mrs. Olive E. Busch read an appreciation of the golden poppy by Joaquin Miller, the poet of the Sierras, and Steven McGroarty's poetic tribute to California.

Attorney Keith C. Eversole, a native son, born in Los Angeles, was the speaker of the evening.

Being in a facetious mood he poked fun at the egotism and eccentricity of native sons and daughters but beneath it all one noted the same old thrill of pride of birth on the sacred soil even of New Iowa.

He said that like Minerva, the goddess of wisdom who sprang full grown from the head of Jove, California served no apprenticeship as a territory but was admitted directly into the sisterhood of states. He referred surreptitiously to many other events in the romantic and colorful history of the state which he might have related had they not fallen outside the pale of his definitely circumscribed subject.

However, he said that the real history of a country is written in the lives of its great men, a similar position now being taken by many professors and teachers of history.

He traced the development of the state during the last decade through the lives and achievements of its notable men in education, politics and finance.

Members responded to roll call by naming their birthplace. It developed that a large proportion of the club women are native born. A few come from other parts of the United States while only three or four were born outside the bounds of the country.

Mrs. Bessie Jamison, whose grandfather A. T. Perkins was the first permanent white settler in Ukiah valley and Mrs. Mabel Smith Hirsch, whose mother was the first white child born in Ukiah are members of the club and were present at this meeting.

Mrs. Marie Hinton Rea, past president of the club was chairman of entertainment committee and presided during the program hour.

She was assisted in the committee work by Mrs. Mary Templeton, Mrs. Genevieve Cox and Mrs. Olive E. Busch.

Birthday Party For Bride Elect

Mrs. K. N. Hengeveld gave a pleasant surprise party at the family home on north State, last Friday evening, to celebrate the birthday of her charming daughter, Lillian, bride-elect of Fernand Eugene Domergue, of San Francisco.

The supper table, adorned with dainty pink rosebuds, was safely illuminated with the roseate glow of tall pink tapers in rose colored holders.

The birthday cake, a snowy angel food frosted in pink and lighted with tiny pink waxen candles in rosebud holders was a work of art. Pink ice cream and other delicate and delectable edibles were also served.

Interesting games afforded the evening's entertainment.

A Message to Mothers

On Children's Eyes by Dr. Roberts

PART 4.

"Vision is Precious Beyond Price."

Telling children stories about eyesight has become a matter of public concern as a good way of teaching them caution. The story about Roosevelt's eyes always interests children. He had very poor vision as a child and of course did not know it. One day he discovered that his companions could see things that he could not see. He told his father about it and so his father had his eyes tested and fitted with glasses. After that, life sped up for Theodore. Sometimes appearance talks help when nothing else will. Children are particularly sensitive about their looks. Poor vision makes people squint and frown. Eyes properly fitted eliminates the wrinkling up of the face. This world is a beautiful place. The changing beauty of the sky, the grandeur of the hills, the peace of the rivers, the flowers with their exquisite colorings, send to us inspirations which are ours for the seeing as long as we can see. Vision is precious beyond price, a treasure worth guarding, worth defending with your life. What terrible tragedy lies in the fear of darkness. What will you give to preserve it, to strengthen it? Stop and think of those already living in the shadow. (Continued).

State Theater News; Tabloid Reviews

Dolores Del Rio and Leo Carrillo, a regal pair, are co-starred in "Girl of the Rio," an RKO-Radio Pictures' film version of Willard Mack's thrilling stage play "The Dove," originally presented by the immortal David Belasco, which is playing at the State theater last times today.

Born of aristocratic parents in Durango, Mexico, Dolores Del Rio was educated in Spain where she formed a friendship with the former king and queen.

She has scored sensationally as the star of "What Price Glory," "Resurrection," "Ramona" and "Evangeline."

After an absence of two years, owing to illness, she returns triumphantly to the screen in a role more brilliant than any other in her colorful career. Dolores Del Rio returned Tuesday on a Dollar liner from Hawaii, where she has been making the picture, "The Bird of Paradise."

Leo Carrillo was born in Los Angeles and is a direct descendant of the Spanish dons who ruled primitive California before the coming of the Anglo-Saxons. His grandfather was the first provisional governor of California and his father was mayor of Santa Monica for 15 years. His most ardent ambition is to repossess as much of his ancestor's former holdings of 5,000,000 acres of southern California land as possible.

He has created many famous characterizations on the legitimate stage but the ultimate triumph of this master delineator is reached in his picturization of "the best caballero in all Mejico."

Norman Foster plays the part of the suave good looking young American who operates the dice table in a gambling house in the border town.

California is a child of old Spain, the romantic spirit of which still lingers like a benediction over the hills and vales of the golden state.

The Spanish atmosphere has a special lure for the native westerners.

The attraction for Saturday matinee and evening is the thrilling western picture "Freighters of Destiny," starring Tom Keene and Barbara Kent.

The performance of the trained horse "Flash," will delight the young people while the prairie wagons will remind the pioneers of the early days in this country.

William Powell will delight the crowd at the State theater next Sunday and Monday in "High Pressure," his second Warner Bros. and Vitaphone starring vehicle by a cyclonic comedy characterization utterly at variance with the melodramatic roles which have made him famous.

He is presented in this picture as a blue sky stock salesman and wildcat promoter who hits the high spots of the Big Town and, drunk or sober, is nonchalant and ever on the alert for new adventure.

Supporting Powell in this picture are George Sidney, beloved comedian returning to the screen after a long absence, Evelyn Brent, Evalyn Knapp and a long list of familiar featured players.

"Traveling Husbands," a hilarious comedy giving the low down on the life of America's five million traveling salesmen, their trials, temptations, and travails and the wonder, wail, and worry of the millions of business widows.

The uproarious story is composed of the romantic adventures of this glib tongued breed of parlor car Bedouins.

The gallant gob's prowess in love is now rated second to that of the traveling salesman, who has a girl in every town to help him enjoy his expense account.

The life of these knights of the rails is a strange admixture of salesmanship, flirtation, conquest and remorse.

The film will be an illumination to many home-keeping wives.

The players include Frank Albertson, Evelyn Brent, Constance Cummings, Dorothy Petersen and many others.

The outstanding attraction of the month will be "The Woman from Monte Carlo," a First National production, which will be presented at the State on Thursday and Friday, March 17 and 18, starring Lil Dagover, the exotic and mysterious continental actress.

The illustrious Lil was born in Madeoin, Java, Dutch East Indies and was brought to Germany by her mother who died when Lil was nine.

She learned to love the dark forests of Europe by traveling with her father, who was a master landscape gardener.

She has been acclaimed as first lady of the stage and screen in Rome, Paris, Berlin, Vienna, Madrid and Stockholm.

The lovely and intrepid Lil has just spent three weeks touring the United States by airplane.

In this thrilling drama of love, war, naval affairs, and the gay life of the boulevards, the alluring Dagover is supported by those two consummate actors, Walter Huston and Warren William.

Between the first and second shows on Thursday and Friday evenings, March 17 and 18, the spring fashion festival will be staged at the State theater.

Models will display the latest styles in fine wearing apparel.

Mrs. Thelma Saari is directing the display.

Special music for the event will be furnished by Winnie Curry's 10-piece orchestra.

The stage setting and spectacular lighting effect will be in charge of B. F. Adams, manager of the State theater.

There will be no increase in the price of admission for the style show and the special picture of "The Woman from Monte Carlo," starring the lovely Lil Dagover.

Some especially fine travel pictures have been shown recently. Manager B. F. Adams announces that a series of African adventure pictures will soon be initiated and will be presented for a number of consecutive Saturdays for the entertainment and instruction of the school children.

Mrs. E. J. James Entertains at Luncheon for Mrs. Bromley

One of the most brilliant social functions of the spring season was the bon voyage luncheon given by Mrs. E. J. James at her home in north State street in compliment to Mrs. William Bromley, who will sail from San Francisco on an ocean to ocean voyage and a returning cross country trip that will take her out of town for a fortnight.

The spacious rooms of the James home were beautifully and brilliantly decorated in an exquisite and emblematic color scheme of green and gold. The green symbolized the keeping green the memories of a life-time of friendship and the gold signified the radiant future still in store for this close group of old friends.

The bright blooms and feathery foliage of acacia lent their luster to the rooms while the luncheon trays were adorned with golden daffodils and narcissi and dainty green ferns.

The nut cups were in the form of golden boats with sea green sails while the place cards displayed similar ships with sails all set in the same glowing shades of green and gold.

After the 1:00 o'clock luncheon, three tables of bridge afforded the entertainment of the afternoon. The high score prize was won by Mrs. C. A. Bernhard.

Mrs. Bromley was presented with a guest prize consisting of a package containing 12 sealed letters, one from each friend present. The letters were each dated on consecutive days covering the period of Mrs. Bromley's absence. Each contained a loving thought and a remembrance. The traveler is thus insured of a message and a gift from a Ukiah friend each day that she will be away from home. Thus the deep and sincere friendship of the Ukiah people will be kept green in her memory.

The guests who attended the delightful affair were Mrs. William Bromley, guest of honor, Mrs. Janet Lynch, Mrs. G. W. Stout, Mrs. Ida Harris Brown, Mrs. W. D. L. Held, Mrs. J. R. Thomas, Mrs. W. E. Williams, Mrs. C. A. Bernhard, Mrs. Jessie Brunner, Mrs. G. P. Anderson, Mrs. Lottie Collins and Mrs. E. W. James.

Mr. and Mrs. Bromley Take Vacation

William Bromley, prominent Ukiah banker, and wife are planning to sail from San Francisco on the Panama Mail steamship Santa Elisa, at 10:00 a. m. Thursday, March 18, on a vacation trip.

They will arrive in the harbor of Los Angeles on March 19 and have the opportunity to spend the day in the fair southern metropolis or on the sunny beaches.

The next stop will be made on foreign soil at Acapulco, Mexico, where they will have time to explore this quaint old Mexican seaport.

They will then proceed to Central America, where they will reach San Jose de Guatemala on March 26, from whence they will take an 80-mile train trip through luxuriant tropical jungles to Guatemala City, the capital of Guatemala. Here they will enjoy a motor drive around the Central American capital city, lunch at the Palace hotel and return to their ship in the evening.

Other cities of the Central American republics to be visited will include Acajutla, El Salvador, La Libertad, and Corrinto in Nicaragua as well as Punta Arenas in Costa Rica.

The ship will anchor at Balboa on the Canal Zone in the early morning of March 31. One of the most interesting events of their itinerary will be a motor drive through Balboa, Ancon, and Panama City.

They will then continue on to Christobal by a daylight ride through the great Panama canal, the engineering feat of the age. A motor drive around Christobal Colon, and Gatun Locks will be provided and also a visit to the naval air and submarine bases.

All day April 2 will be spent in the port of Cartagena, Columbia, South America, in the southern hemisphere, where they will look north to the sun.

Their itinerary includes one day at Havana, Cuba, where they will have the opportunity to investigate this quaint old Spanish town as well as to see something of rural life on the island with its luxuriant gardens and great plantations.

They expect to register at the Lexington hotel in New York on April 11 and are eagerly anticipating a visit to such points of interest as Fifth Avenue, Riverside Drive, Cathedral of St. John, the Divine, Grant's Tomb, Broadway, the theatre district, East Side, the Ghetto and Bowery, and Greenwich Village, and of infinite interest to the financier, the financial district, Wall Street, the Exchange and Curb markets.

They plan to arrive in Washington, the national capital, on the morning of April 16, where they will make pilgrimages to the public buildings, the White House, the National Museum, the Bureau of Engraving and Printing where paper money, bonds and stamps are made; the Pan-American Union Building; the United States capitol with its Supreme court, Senate chamber and House of Representatives, Hall of Fame, etc.; the Congressional library, in which is kept the original Declaration of Independence and the Constitution of the United States. Their supreme celebration of the Washington Bi-centennial will be a drive to Washington's home at Mount Vernon, which is perhaps the most beautiful and historic spot in America. They will roam through Martha Washington's garden bounded by green box wood hedges. It is said that the gardeners save and root the clippings which they sell to tourists. If so, we hope they will bring home a Washington boxwood plant in commemoration of the Bi-centennial.

They will drive to Arlington and through the residential district of a number of embassies, legations of foreign countries, and homes of such famous Americans as Dewey, Wilson, Taft and others.

After spending a day in Pittsburg, Pennsylvania, they will come directly home by the southern route. Their long vacation will be crowded to capacity with change, sight seeing and pleasure of travel.

Their many friends are wishing them a pleasant journey and a safe return.

Origin of Dominoes

Dominoes was invented by two French monks, who amused themselves with square flat stones, marked with spots. The winner declared his victory by reciting the first line of the Vesper service, "Dixit Dominus Domino Meo." When, later, the game became the recreation of the whole convent, the Vesper line was abbreviated into "Domino," and the stones themselves received the name of "Dominoes."

Baseball's Beginning

Baseball began officially with the organization of the Knickerbocker club in September, 1845, and the first baseball match ever played took place between rival nines selected by that club at Hoboken, N. J., June 19, 1846. At the end of four innings, the leading nine had made the requisite 21 runs and were declared winners.

No Identical Chapters

No two chapters of the Bible are exactly alike, as so many people suppose. There is very little difference, however, between the thirty-seventh chapter of Isaiah and the nineteenth chapter of II Kings. Other portions of the Bible are duplicated also, but there are no two entire chapters that are the same.—Pathfinder Magazine.

Anthracite Displaced

Anthracite coal first came into general use for that purpose about 1840, although it had been tried successfully some ten years earlier. About 1890 anthracite reached its peak as a blast furnace fuel, when 2,500,000 tons were used. By 1925 its use had been discontinued, having been superseded by coke.

Explain Evolution as Result of Inner Urge

Aristogenesis, sprung by Prof. Henry Fairfield Osborn on the National Academy of Sciences at Yale, seems to be a modification of what some biologists have been calling orthogenesis for years. By orthogenesis is meant evolution in straight lines.

Those who believe in this view have made much of the horse, the camel and the titanothere in proving that there is direction in evolution. Thus millions of years ago, when they were about as big as St. Bernard dogs, horses started to get rid of their toes and to lengthen their legs. They began with five toes and wound up with one. They raised themselves on stilts, as it were, and grew bigger and speedier in the process. What made the horse change? Not his surroundings apparently, nor any definite organic advantage. So Professor Osborn and those who hold with him explain evolution as a result of some inner urge to change in a particular way. Natural selection then proceeds to standardize the species.

Opponents of Professor Osborn and orthogenesis argue that there are very few examples of straight-line evolution. There are, for example, abortive fossil horses in South America—creatures that thickened their limbs and spread out the hoof. There are also abortive titanotheres.

Equally puzzling are creates (mollusks, for example) that evolved along lines that led to extinction. Neither old-fashioned Darwinism nor orthogenesis can tell us why.

This Probably Was New York's First Roadhouse

It must have been New York's first roadhouse. Mention of it was made in an advertisement that appeared in the New York Packet on May 23, 1785, which informed the public that Talmage Hall had fitted up the "elegant house on Harlem Heights" owned by Isaac Ledyard "for the accommodation of ladies and gentlemen from town, as well as gentlemen travelers," and had gathered together "ready and obedient servants and the best fare that the country and town affords." The advertisement went on in this fashion:

"Parties from town, and travelers, may be served with breakfasts, dinners, suppers, relishes, tea, punch, etc., at ten minutes' notice. He (Hall) keeps the choicest liquors, and promises that his guests shall have the most prompt attendance. He has provided also genteel lodgings, stablings and pasture.

"The Octagon room is very happily calculated for a turtle party and his guests shall have for deserts peaches, apricots, pears, gooseberries, nectarines, cherries, currants and strawberries in their seasons."—New York Sun.

Old Lighthouse

Cape Florida lighthouse was built in 1825-26 by the federal government. It was not of Spanish origin, although its somewhat dilapidated appearance has no doubt given rise to the belief that it dates back to the days of Spanish occupation. The tower was partly destroyed by Indians in July, 1836. It was not again relighted until the old tower was demolished and a new tower built in 1846-47. In 1861 the lighting apparatus was destroyed by a band of lawless persons, and the light was not relighted until April, 1866. The light was finally discontinued in June, 1878, when Fowey Rocks light was first exhibited.

Had 'Em on Wrong Limb

Mrs. Nitwit giggled once too often during dinner, and the head of the house insisted on knowing the reason for his wife's mirth.

"It's just another joke on the absent-minded Miss Blank," she told him. "We had a rummage sale at our club this afternoon and right in the middle of it, in marched Miss Blank with a pair of wet stockings over one arm. She said she had rinsed them out, hung them over a radiator and then decided she ought to put them some place else since she was going out. So she took them down, draped them on one arm and forgot they were there until she got to the club."—New York Sun.

Citizenship

"The Constitution of the United States of America," a book published by the government, says on the subject of a person being a citizen of a state without being a United States citizen: "Citizenship in the United States and citizenship in a state are distinct and may be separately acquired. A resident of the District of Columbia may be a citizen of the United States but not a citizen of any state, and it would seem that one might be a citizen of a state without being a citizen of the United States, although the authorities differ on this point."

The Five Ages of Man

"Daddy, I know how to do everything," said the little boy of five.

"What I don't know isn't worth knowing," said the young man of twenty.

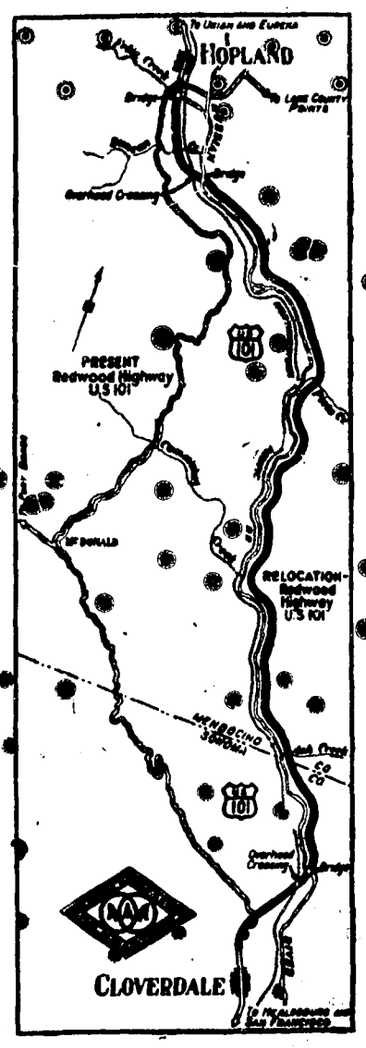
"Well, anyway, I do know my own trade A to Z," said the man of thirty-five.

"There are very few matters, I am sorry to say, that I am really quite sure about," said the man of fifty.

"I have learned a bit, but not much since I was born; but knowledge is so vast that one cannot become wise in a short lifetime," said the man of sixty-five.

Grading Operations Start on New Road

Will Eliminate 280 Curves and Shorten Distance Three Miles from Cloverdale to Hopland



Map prepared by the California State Automobile Association showing the route of the Cloverdale-Hopland relocation, which appears in the heavy black line, and the present road between those points shown in the lighter double lines.

Grading operations are now in progress on the route for the relocated section of the Redwood highway, U. S. 101, from Cloverdale to Hopland. The present winding road between those points is to be supplanted by a modern highway with a minimum of grades and curves, in an entirely new location. The cost of the grading, under a contract let by the Highway Commission, is $463,264. After this is completed there will remain the surfacing of the road and erection of several structures. These include two bridges over the Russian river, two grade separations over the Northwestern Pacific railroad, a bridge over Feliz creek, and one sidehill viaduct at Squaw Rock.

The entire expenditure involved is expected to be around a million dollars. The new road probably will be completed and opened to travel in the summer of 1934.

The project is cited by the California State Automobile Association as an outstanding example of the policy now prevailing in state highway construction, which is that when reconstruction becomes necessary on a main route a location shall be chosen that will best serve present day traffic and require a minimum of future changes. In other parts of the state are similar examples of the policy, which the motorists' organization has strongly urged and supported.

The new road will be 13.9 miles long, or three miles shorter than the present Cloverdale-Hopland section. The maximum grade will be four per cent. The highest elevation will be 520 feet, compared to 1,275 feet on the existing road. Where the old road had 321 curves, the relocated road will have only 41, none of them sharp. All curves will have a radius of not less than 1,000 feet.

Kenneth Hopkins and Robin Shore, Potter valley youths, were visiting Mr. and Mrs. Luther T. Hansen Wednesday.

New Electric Signs Erected at Willits

Birthday Party Given in Honor of Basilio Quadrio. Schools May Consolidate

WILLITS, March 8.—The Willits chamber of commerce has had two electric signs erected at the north and south ends of our business district. One is at the Mill creek bridge and the other at the Broaddus creek bridge. Entering town from the south one reads in large letters the word "Willits" and on the reverse side, to motorists going south, the sign reads, "You are now leaving Willits—next town Ukiah, 24 miles." At the north end the wording is exactly the same with the exception that the "next town is Laytonville, 28 miles." The section of the Redwood highway above mentioned is all that our town trustees now have jurisdiction over. The balance has been turned over to the state highway commission, which is making arrangements to widen it to the width of 100 feet. From the Broaddus creek bridge south it is the intention to take out most of the kinks in the present serpentine road and about half of the houses facing on this stretch will have to be moved back to conform to the new alignment.

Birthday Party

Philip Quadrio gave a party to a large number of friends at his grove last Sunday in honor of Basilio Quadrio's birthday. The merrymakers started the festivities by partaking of an elaborate banquet that afternoon and in the evening all of the members of the Willits fire department, accompanied by their wives and sweethearts, were the guests of honor and Joe Ceratto and Jim Heap furnished the music while the young folks tipped the light fantastic.

Announce Candidacy

Mayor John Keller, Duane Bittenbender and Philip Quadrio, members of the present town board, whose terms expire this year, have all been prevailed on to stand for reelection next month. The present board seems to give general satisfaction and they will probably have no opposition.

More Cabins

Ed Miller has arranged to add three more cabins to his already large plant at Lanes Redwood Flat. Yesterday Al Lightford and A. E. Keller went up to start the carpenter work and V. W. Haselwerbt to do the plumbing. Walter Howard has also gone up and will have general supervision of the work. When all of the contemplated improvements are made Lanes Flat will be one of the best resort highway camps on the coast.

New Equipment

The Majestic theatre was closed two days last week on account of the installation of the new sound equipment. Under the old system they used discs for sound and films for the picture. The new Syncrofilm machine uses both sound recording and pictures on the same roll of films. This is similar to those used in all of the large cities of the land and will give us results equal to the best anywhere.

May Consolidate Schools

A movement is on foot to consolidate the Whitcomb, Sawyers and Little Lake schools with the Willits grammar school. This proposition will be discussed at the regular meeting of the Willits farm center on March 14. The meeting will be addressed by outside speakers, who have made a special study of similar consolidations. The great idea is to reduce expenses, if possible, and if carrying the children in busses is cheaper and better the proposition will undoubtedly go through.

TELEPHONE CALL MAKES "SHORT DISTANCE" RECORD

In these days when so much is heard about new records being made in long distance telephone calls, word comes out of the Paramount Studios in Hollywood, Calif., of a call that lays claim to being the shortest telephone call on record. In the filming of "The Road to Reno," a mark of thirty inches was established for a telephone call. It was from the sound monitor, in his glass-front soundproof box, to his assistant outside the box. This short telephone service is used to eliminate delays in unlocking the box for instructions.

City Work Helps Unemployed

Aiding the unemployment situation in Ukiah, the city engineer's office gave three married men with large families about 10 days work, beginning Monday morning, when the curbs and gutters around McGarvey park were started.

Guss Wallach, city engineer, got the names of the three, who were on the waiting list as needing work from the chamber of commerce, and employed them on this project. There are 10 other local married men with four teams at present engaged in grading work on Clara avenue. This work also started Monday.

Indian Relief Fund Put Into Road Work

WILLITS, March 7.—The U. S. government made an appropriation of $2,000 to help the destitute Indians on the old Round Valley Indian reservation. Rather than distribute this money in the form of doles the authorities decided to put the able-bodied Indians to work and the most available project was to grade and gravel about 25 miles of roads of what used to be the reservation, a large portion of which is still in the possession of the Indians.

Supervisor J. M. Rupe furnished the road equipment and the work was done under the supervision of John Quinliven, road overseer for that section. Indians were employed in shifts loading the gravel on trucks while others spread it on the roadbed. The appropriation was rather small but it was so distributed that most of the able-bodied and destitute Indians were given a few days work each week.

The column of heights gives the elevation of each tide above or below the level of the Coast Survey chart soundings. The numbers are always additive to the chart depth.

The data is practically the same for Point Arena Light, Navarro River Entrance, Little River Harbor, Mendocino Bay and Fort Bragg Landing. For Westport subtract 5 minutes from the time and for Shelter Cove add 0.8 ft. to high tide.

DEMOCRATS SHOULD IGNORE SMITH CANDIDACY

The lineup is now pretty well drawn for the contest in the Democratic party in California as to whether the state delegation to the national convention shall be instructed for Roosevelt, Garner or Smith. A set of delegates for each will in all probability be on the ballot and the issue will then be up to the rank and file of the party. Smith has no chance of winning the nomination and we believe he should not have allowed his name to be put forth in the primaries. But even could he get the nomination, he is probably the only eligible in the party who would not be able to beat Hoover. He had his chance four years ago and, although he polled the largest popular vote ever given a Democratic presidential candidate, he carried only eight states. It would seem only fitting that he should stay out of the race now in the best interest of the party. His entry is for ulterior political purposes only.

On the other hand, both Roosevelt and Garner are bona fide candidates and either can beat Hoover. While Hearst's espousal of Garner is not to the latter's credit, nevertheless Garner probably cannot help it. Hearst generally does as he pleases and it generally pleases him to throw a monkey wrench into the Democratic machinery. He avows himself a Democrat, but he fought Wilson and hounded him until the day he died and even yet heaps calumny upon his memory whenever the opportunity arises. He also fought Al Smith four years ago. Garner, therefore, is not gaining much strength from Hearst's support among the older and regular members of the party.

But, be that as it may, nothing can be said against Garner himself, either as to his Democracy, his statesmanship or his record. He is a credit to the party and no apology need be offered by those who vote for him in the primary.

We advise the Democrats of California, therefore, to ignore the Smith delegation on the ballot and register their choice for either the Roosevelt or Garner group. We followed Smith four years ago faithfully to the final debacle. We are not ashamed of it nor have we any apology to offer, for Al Smith is a big man, a brave man, and an able man. He came out on a clean cut platform and stayed by his colors. But we do not think he has any business as a candidate in the presidential primaries this year.

Let the Democracy of California confine their votes to either Roosevelt or Garner, and let the best man win.

Plant Cork Oaks on Experimental Tract

4-H Boys Invited to Participate in Work. Other Notes from Redwood Valley

REDWOOD VALLEY, March 9.—Nine of the local 4-H club boys accompanied Prof. Metcalf to the property belonging to the state near the summit between here and Willits last Thursday afternoon and assisted him in planting a number of cork oak seedling trees, also a large number of acorns, which will be propagated for nursery stock. The cork oak is a native of Spain but has been grown in several parts of California with fair success. The present plantings are for experimental purposes.

Messrs. Myszka and Foote piloted the party; C. Hargreaves accompanied them. Redwood valley 4-H boys making the trip were Harley Branson, Carey and George Hargreaves, John Muir, Louie and John Ricetti, Jack Savage and Hershel and LeRoy Ford.

The land on which the planting was done was given to the state university by Charles Howard some time ago for forestry experiments.

The county council of 4-H club leaders met in Ukiah Thursday night. District Club Leader G. Waterhouse and Prof. Metcalf were present. Redwood valley was represented by Mrs. J. Lewis, C. M. Goudge and T. Jameson.

Plans were discussed for the club work for the coming year.

Mrs. C. M. Goudge and two younger sons left the latter part of last week for Grimes, Colusa county, where Mrs. Goudge will visit with her parents.

C. M. Goudge went to San Francisco Tuesday on a business visit.

The farm bureau met Tuesday night. Senator Ingels gave a very enlightening talk on legislation.

He urged the voters to vote no on the oil conservation bill, which will be voted on in May at the presidential primaries, as he did not believe it was in the public interest and would result in an increase in the price of gasoline. He also discussed the new fire laws, roads and taxation.

Assistant Farm Advisor Foote spoke on moisture control.

An interesting two-reel movie was shown with Chinese and Japanese pictures, including the war zone.

Community singing was enjoyed.

We note that last week Earl Ford was included in the Redwood valley basketball players. This evidently was a mistake in the "translation," for the only Earl Ford we know, if he ever played basketball, probably quit playing some 20 or 25 years ago. Carl Fred was the player instead of Earl Ford.

The boys had an off night and lost to Fort Bragg last week. The deciding game will be played at Ukiah at 8:00 o'clock Friday night. Ukiah will probably again be represented by about an 80 per cent Redwood valley team. The yell leaders are 100 per cent Redwood. It is worth the price of the game to see Harley Branson and Erla Yarbrough cavort as yell leaders.

Mrs. A. E. Forbes, of San Francisco, is spending two weeks visiting her parents, Mr. and Mrs. A. R. Zeller, and looking after ranch interests here.

Miss Erla Yarbrough accompanied C. M. Mannon and daughter to the basketball game at Fort Bragg Saturday night.

The Improvement club met Saturday night. The 4-H club boys were extended the use of the clubhouse for their meetings.

The Grange will meet Friday night. The program will feature St. Patrick's day.

TO DISCONTINUE STAGE LINE

The Railroad Commission has received an application from Coast Line Stages, Inc., asking authority to discontinue operation of an auto stage line between Fort Bragg and Rockport and between Fisk Mills and Cazadero, in Mendocino and Sonoma counties. The application states that the closing of the lumber mills has resulted in practically a complete loss of business.

Ed Schock, of the P. G. and E. company, was registered as a guest at the Cecille hotel Wednesday.
